## Profile

Currently pursuing a **professional course in Computer Science and Engineering** with a solid foundation in **Python, and JavaScript**. I have gained hands-on experience building web applications using the **MERN stack** through internships and projects involving **ReactJS** and **Node.js**. I am a detail-oriented individual ready to leverage my **analytical skills** and **adaptability** to deliver efficient software solutions across various technical environments.

## Technical Skills

- **Programming Languages**: C, Python, JavaScript.
- **Web Stack:** MERN (MongoDB, Express, React, Node.js), HTML5, CSS3.
- **Tools:** Cursor, VS Code, MS Excel, Python IDLE.
- **Version Control:** GitHub.

## Internships and Trainings

- **JavaScript and ReactJS Intern |Ei Systems** ( May 2025 – July 2025):
  Developed a **College Management System** using ReactJS, utilizing a component-based structure to handle complex data like fee structures and student details. Optimized frontend performance by implementing Single Page Application (SPA) logic to improve user navigation and load times.
- **Web Development Intern| Internshala (**May 2024 – July 2024):
  Acquired foundational knowledge in full-stack web development, focusing on the core principles of HTML, CSS, and JavaScript. Developed a **Online Quiz Application** as a capstone project, allowing users to practice quizzes and view subject-wise scores.
- **CAT Modelling Training:** Insurance fundamentals, CAT model framework (Hazard, Vulnerability, Financial), exposure data cleansing, geocoding basics, Excel & SQL for data analysis, policy conditions (deductibles & sublimit), and loss metrics (AAL, EP Curve, TVaR).

## Projects

- **EcoMart – Multi-Vendor E-Commerce Platform**: Developed a multi-vendor e-commerce web application that brings multiple local businesses onto a single online marketplace with seamless product listing and online ordering. Implemented role-based authentication (Admin, Vendor, Customer) with vendor dashboards for managing products, inventory, and orders. Built secure and scalable RESTful APIs using the MERN stack (MongoDB, Express.js, React.js, Node.js) to support real-world e-commerce workflows.
- **College Management Website**: Developed a user-friendly single-page application (SPA) website with a component-based structure, enabling staff and students to access college details, fee structures, and related information.
- **Online Quiz Application**: Developed an Online Quiz Application for faculty and students to access various quizzes and view subject-wise scores. Implemented a grid-based layout and enhanced application logic and functionality using JavaScript.

## CERTIFICATIONS

- **Artificial Intelligence: Concepts and Techniques (NPTEL)| (**July 2025 – October 2025**) -** Silver Certification
- **Cloud Computing (NPTEL)| (**January 2024 – April 2024**) -** Silver Certification
- **Introduction to Programming in C (NPTEL) | (**January 2023 – March 2023**) –** Elite Certification

## Education

- **Newton's Institute of Science and Technology** — Palnadu(AP), India
  *B.Tech in Computer Science and Engineering* — *2022 - Present*
- **Kendriya Vidyalaya Sangathan** — Guntur(AP), India
  *Intermediate (CBSE)* — *2020 - 2022*
- **Krishnaveni High School, Macherla** — Palnadu(AP), India
  *Class X (AP State Board)* — *2019 - 2020*

## Position of Responsibilities

- **Class Representative (2022-Present)**
- **Student Lead & Event Anchor | Tech Fest:** Spearheaded the coordination of the Seminar competition in 2024 and led anchoring for formal/cultural sessions to ensure smooth event execution and team communication.

## ACHIEVEMENTS

- Secured 2nd Place in the **All India Below 1500 FIDE Rating Chess Tournament**, organized by the Telangana State Chess Association.
- **Adobe India Hackathon Participant:** Successfully completed the Online MCQ Assessment and Coding round as part of Team CodeConnect.
